DOD/Commercial Dual-Use Capabilities Statement

MaxSearch 2.0 pictured above from MaxSet Worldwide Inc. is a commercial breakthrough technology in the area of document search and retrieval ideal for dual-use as a DOD solution for Air Force leadership, maintenance manuals, operations, FOIA, PDF's, docs, texts, html, and more.

MaxSearch Core Features and Benefits

MaxSearch 2.0, "4th gen. A.I. Power on the desktop or laptop".

- **Operational schedules:** MaxSearch can highlight critical processes in Airforce schedules for improved safety and efficiency of base support and operations.
- **Technical manuals:** MaxSearch can aid with the understanding of technical and operational manuals (with updating) for operating, maintaining, troubleshooting and upgrading instructions, equipment, systems and other major end items.
- **Force deployment and load-out data:** MaxSearch can process and improve the searching and reporting of the files and data describing and directing global movements of units, equipment and logistics.

- ***Reports and FOIA:*** MaxSearch can streamline the discovery of operational reports, after-action reports, accident reports, operational chats, communication logs and server logs.
- ***Performance evaluations:*** MaxSearch can instantly scan and retrieve key data from performance evaluations, personnel records, board results, promotion examination results, legal reviews and discipline records.

Areas of Expertise

- Add documents in seconds and search folders of numerous documents at the same time.
- Full sentence output with the words highlighted you are looking for!
- Conducts all subsequent searches of the same documents with our AI created searchable-word lists!
- Processing speeds are 100X faster than other commercial offerings.
- Common input file types include; PDF, html, text, DOCx, and more.
- Structuring is 99.9% accurate (hash value provable)
- Our built-in AI will start searching for other important keywords immediately and provide you will all the words (new terms) to use right away, for instant searches, all on the side bar.
- Export at any time, all your retrieved searches into a SharePoint, SQL, No-SQL, Excel, or universal .csv file

Secure

- 100% USA code, under complete NIST guided Cyber-secure conditions and controls
- Runs entirely on-premise on Windows desktop, and laptop devices
- 2019 Q1 MaxSearch 3.0 will support SaaS platform with next-gen patented encryption.

Very Respectfully,

The MaxSet Small Business DOD group
